2. Purpose of the LanguageCert Test of Classical Greek (LTCG) Qualification Handbook

The LanguageCert Test of Classical Greek (LTCG) qualification handbook provides a comprehensive introduction to the suite of LTCG qualifications and their associated examinations. It also serves as a reference point for test centres, teachers, candidates, and other stakeholders involved in the delivery of the LTCG exams.

3. Introduction to the LanguageCert Test of Classical Greek (LTCG) Qualification

3.1 Aim of the LTCG Qualification

The aim of the LanguageCert Test of Classical Greek (LTCG) qualification is to assess a test taker's ability to understand and use the Classical Greek language in alignment with the Common European Framework of Reference (CEFR). The LTCG qualification is suitable for young people or adults who intend to apply for higher or further education, or professional employment and training programmes. It also aims to provide a valid and accurate assessment of candidates' reading and language use skills at each level.

3.2 Who is the LTCG qualification for?

The LanguageCert Test of Classical Greek (LTCG) qualification is suitable for:

Learners of Classical Greek who:

- wish to acquire an internationally recognised certification of their Classical Greek language competence
- wish to provide current or potential employers with information as to their Classical Greek language level
- wish to master the Classical Greek language and monitor their own progress
- wish to undertake a course of study at a university or college and require evidence of their Classical Greek knowledge

Universities and Colleges that:

- need to establish the Classical Greek language level of students to evaluate their ability to follow their chosen course of study
- wish to offer students a test which will provide them with widely recognised certification of their Classical Greek language knowledge
- require an externally recognised certification as part of their matriculation or graduation process

3.3 Entry Requirements

There are no entry requirements for any test taker prior to taking their LanguageCert Test of Classical Greek (LTCG) qualification. However, it is important that Test Centres offer test takers the most appropriate LanguageCert Test of Classical Greek (LTCG) qualification, depending on each candidate's ability and individual needs.

There is no minimum age recommended, however the exam has been designed for adults that have attended relevant courses or young underage candidates who have attended similar courses.

3.4 Guided Learning Hours (GLH) and Total Qualification Time (TQT)

Guided Learning Hours (GLH) is the number of hours that a centre or other provider of education or training delivering the qualification might need to provide. Guided learning means activities, such as

lessons, tutorials, online instruction, supervised study and giving feedback on performance, that directly involve teachers and assessors in teaching, supervising and invigilating learners. As a learner advances up the levels, the number of hours to attain each level increases, this being evidence of the continual nature of language learning.

For the LanguageCert Test of Classical Greek (LTCG) qualification, LanguageCert specifies a total number of hours – stated as Total Qualification Time (TQT) – that it is estimated learners will require to complete and show achievement for the qualification.

LanguageCert Level	Qualification Title	Guided Learning Hours (GLH)	Total Qualification Time (TQT)
A1	LanguageCert Test of Classical Greek (A1) (Reading & Language Use)	100 hours	160 hours
A2	LanguageCert Test of Classical Greek (A2) (Reading & Language Use)	120 hours	200 hours
B1	LanguageCert Test of Classical Greek (B1) (Reading & Language Use)	180 hours	300 hours

Please note that the above figures are estimates of numbers of hours a learner is reasonably likely to undertake with reference to each respective level of the qualification, not cumulative estimates across the two levels.

LanguageCert liaises with its test centres and users to ensure that appropriate and consistent numbers of study hours are assigned to its qualifications.

3.5 Skills Tested

The LanguageCert Test of Classical Greek (LTCG) suite consists of reliable and valid tests of Classical Greek that use a variety of tasks to assess a test taker's reading and language use skills along with their awareness of lexico-grammatical structures.

Reading

Test takers are required to read short and long texts on general topics. The reading component assesses test takers' ability to understand the main idea of a text or to look for specific information or line of argument.

Language Use

Language awareness and understanding is assessed with various items focusing on vocabulary, syntax and lexico-grammatical knowledge.

Both test components contribute to a profile which defines the test taker's overall language ability at each level.

4. Overview of Scoring

The LanguageCert Test of Classical Greek (LTCG) examinations are stringently assessed against the criteria as detailed in the Syllabus *(see section 10 of this handbook)*. The overall performance is calculated by adding the scores achieved in all parts as the weighting of all parts is equal.

With the completion of a paper-based version of the LTCG test, the test taker receives a score within a scale from 0-100 and a 'Statement of Results' stating an overall score they have achieved.

11. Reasonable Adjustments and Special Considerations

11.1 Policy Overview

LanguageCert's Equality and Diversity Policy is in compliance with all current and relevant legislation (Equality Act 2010) and requires all learners to have equal opportunity to access all qualifications and assessments. In order to ensure that the language ability of all test takers is assessed fairly and objectively, LanguageCert provides reasonable adjustments and special considerations for test takers who have special requirements, including specific learning difficulties, hearing or visual difficulties, impaired mobility, and medical conditions.

The provision for reasonable adjustments and special consideration arrangements is made to ensure that candidates receive recognition of their achievement so long as the equity, validity and reliability of the assessments can be assured. Such arrangements are not concessions to make assessment easier for candidates, nor advantages to give candidates a head-start. All LanguageCert authorised test centres are expected to ensure that LanguageCert qualifications and assessments do not bar candidates from taking them and must adhere to the principles and guidelines included in the LanguageCert Reasonable Adjustment and Special Considerations Policy on LanguageCert's official website, www.languagecert.org.

11.2 Reasonable Adjustments

A reasonable adjustment is any action that helps to reduce the effect of a disability or difficulty that places the candidate at a substantial disadvantage in the assessment situation. It is applied to an assessment to enable a candidate with a disability or learning difficulties to demonstrate their knowledge, skills and understanding of the levels of attainment required by the specification for that qualification. Therefore, candidates should be fully involved in any decisions about reasonable adjustments. This will ensure that individual needs can be met, whilst still bearing in mind the specified assessment criteria for a qualification.

Reasonable adjustments are approved or set in place before the exam takes place and requests should be submitted no later than 30 days before the exams. As the needs and circumstances of each candidate are different, centres must consider any request for a reasonable adjustment on a case-by-case basis. If a centre is making a request on behalf of its candidates, it should complete a 'Reasonable Adjustments request form' (centres will find this in our Partner's Area) and in doing so supply relevant supporting documentation.

Individual candidates can make requests directly to LanguageCert using the channels described in the "Contact Us Guide". All candidates who are requesting reasonable adjustments because of a disability must provide appropriate documentation of their condition and how it is expected to affect their ability to take the test under standard conditions. This may include additional supporting documentation from the professional who diagnosed the condition.

11.3 Special Considerations

Special consideration can be applied after an assessment if there was a reason the candidate may have been indisposed at the time of the assessment. For example, special consideration could apply to a candidate due to a temporary illness or injury or due to some other event outside of their control (e. g. exam conditions) which might have had material effect on that candidate's ability to take an assessment or demonstrate their level of attainment in an assessment.

Special consideration should not give the candidate an unfair advantage; neither should its use cause the user of the certificate to be misled regarding a candidate's achievements. The candidate's result must reflect their achievement in the assessment and not necessarily their potential ability. LanguageCert's decision to award special consideration will be based on various factors, which may vary from candidate to candidate and from one assessment to another. These factors may, for example, include the severity of the circumstances and the nature of the assessment.

Requests for special consideration should be submitted after the exam and no later than 5 days after the date of the exams. If a centre is making a request on behalf of its candidates, it should complete a 'Special Considerations request form' (centres will find this in our Partner's Area) and in doing so supply relevant supporting information.

Requests may only be accepted after the results of assessment have been released in the following circumstances:

- Application has been overlooked at the centre and the oversight is confirmed by the centre cocoordinator
- Medical evidence comes to light about a candidate's condition, which demonstrates that the candidate must have been affected by the condition at the time of the assessment, even though the problem revealed itself only after the assessment

If the application for special consideration is successful, the candidate's performance will be reviewed in the light of available evidence. It should be noted that a successful application of special consideration will not necessarily change a candidate's result.

The application forms for Reasonable Adjustment and Special Considerations requests can be found on LanguageCert's official website (https://www.languagecert.org/policies-procedures).

The LanguageCert Test of Ancient Greek (LTAG) qualification assesses the candidate's ability to read. As a result, some access arrangements cannot be permitted. Examples are given in the table below.
